Erie Regional Manufacturer Partnership

Join the Partnership today!

The Erie Regional Manufacturer Partnership was formed in 2014 by a group of 20 local manufacturers that in total employ approximately 9,000 individuals, to develop and implement a plan that will result in the ability to identify, qualify, and recruit individuals for manufacturing employment. In addition ERMP aims to create greater opportunities for individuals in the community to enter into and advance along manufacturing career pathways. This grassroots effort is led by industry partners to collectively identify needs and champion solutions as it relates to developing a robust pipeline and producing a skilled workforce.

In order to be truly industry-driven, the partnership must have a dedicated members who are fully invested in addressing the region's workforce needs.

MEMBERSHIP TYPES AND CONTRIBUTIONS

Sector Partnerships are strongest when they are industry-driven and supported by partners from a variety of organizations: education providers, community organizations, government and public service agencies, and more. Members are needed to continue the mission of the Partnership and continue to push the initiatives forward.

ERMP relies on the investment of its members—but the return is even greater. Annual contributions ensure the partnership is addressing issues to build a regional workforce that is ready to meet the needs of today's manufacturing environment.

MEMBER TYPE	ANNUAL CONTRIBUTIONS
